The following guidelines for posting images comes from the DECD Social Media Policy

When posting images of students or using their work the following guidelines apply:

- A consent form must be signed by the parent or guardian prior to taking images of any child/student who is under the age of 18 years.
- Sites must ensure each child shown in the image has a signed consent form. Where a photograph is taken of a group of students (e.g., six students have a signed consent form on record but one has not) the image cannot be used unless consent is obtained for all students.
- Images of students/children on a website must not include any names identifying any of the students/children in the image and care must be taken not to reveal personal information about the subjects.
- Only text identifying the school can be used and/or a description of the activity (e.g., students from Somewhere High School performing at the Come Out festival).
- Only photographs with students in standard school uniform or day clothing are used. Photos of single students and of children and students in swimming attire should be avoided.
- Parents should be aware of the privacy and security concerns of identifying their children online, within the 'acceptable use' conditions. If they still choose to identify their children, then it is their right. In the case where parents disagree do not identify the student/child.
